Where are King County's most expensive homes?

Bedroom GroupAll

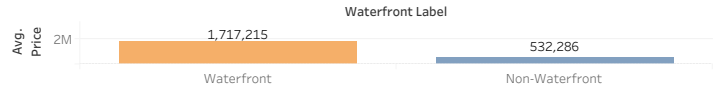

How much does property grade affect price?

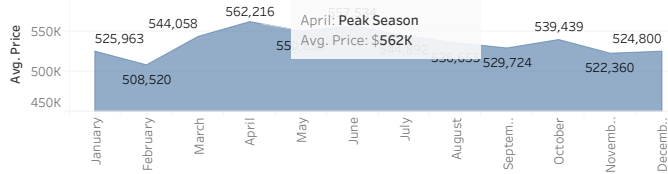

Property grade is the strongest price driver — Grade 13 mansions average \$3.7M, 17x more than the lowest grade.

Is a waterfront property worth the price?

Just 146 waterfront homes command a 3.2x price premium — \$1.7M vs \$532K for non-waterfront.

When is the best time to buy or sell?

April peaks at \$562K. Winter buyers save up to \$54K compared to peak season.

What the Data Tells Us

Grade and location are the dominant price drivers in King County. Waterfront access adds a 3.2x price premium, and seasonal timing can save buyers up to \$54K. Use the filters to uncover price patterns across different property types.
